We facilitate our client's journey towards: feeling empowered, clearer about their purpose and direction, and recognising that their experiences serve them as valuable learning through which they evolve in the spiral of their life.

The coach training, mentoring and supervising programs are intended for people with an open heart, who feel the calling of the coaching profession, and who want to work with other people to support them in their growth and evolution.

We provide coaching services at ICF ethics and standard, in the areas of individual, relationship, team and organisation needs. We support organisations to apply those services in a valuable, ecological and sustainable way for themselves, their people, the environment and partners in their journey. Our services are delivered in one-to-one, relationships of two and group (3-100) format.

We complement our coaching expertise with holistic organisation management, leadership and sustainable collaboration competencies. We have created a number of development models that we share in our training programs, consultancy and mentor coaching.

All our development pursuits are grounded in the philosophy described above. Our coach training, supervision and mentor coaching programs combine the art, ethics, competencies and standards outlined by the ICF with knowledge and experience of the fields clients most often choose to evolve in, as individuals, as partners in a relationship, and as members of teams or communities.

Full ACTP Intuitive Coach Overview

The ACTP Intuitive Coach Programme is a 140h start-to-finish coach specific training program. The programme includes comprehensive instruction around the ICF Core Competencies, Code of Ethics and the ICF Definition of Coaching. It also includes Mentor Coaching, Observed Coaching Sessions and a Final Exam that is honoured as the Performance Evaluation in the ICF Professional Certified Coach (PCC) Credential process.

Students acquire practical and theoretical knowledge, awareness of the ethical conduct with multiple opportunities to develop skills under the guidance of the faculty. It is 140 hours of instruction, practice of coaching, and observation with one-to-one feedback, mentor coaching and the ICF PCC Performance Evaluation exam:

- 90% of the total hours of instruction and practice are delivered synchronously with the opportunity for real time interaction between students and teachers.
- 90% of the total hours of instruction and practice are in direct alignment with the ICF Core Competencies, Code of Ethics, or Definition of Coaching.

The Full Intuitive Coach consists of two stand alone parts:

1) “The Birth of a Coach” for applicants for the ICF Associate Certified Coach (ACC) Credential (Level 1)

72 hours of a stand alone coach specific training programme is taught at the ‘beginner’ to ‘intermediate’ coaching competency level. It is indented for students starting their journey of learning coaching competencies. It is currently in a process of transition to ICF Level 1 Education.

The graduates of “The Birth of a Coach” receive an ACSTH Training Certificate, entitling them to apply for ICF ACC accreditation following the ‘ACSTH Path’. The graduates are also entitled to continue in the second part, the “Intuitive Coach Advance” towards ACTP certificate and ICF Professional Coach Credential.

The Birth of a Coach consists of 60 hours of group face-to-face training and 3 one-to-one observed coaching sessions. Students audio-record 3 of their coaching sessions with their clients upon which the observer-instructor provides each student with an individual oral and written feedback on 8 ICF Core Competencies at the ICF ACC level.

The Birth of a Coach provides a foundation for the student to start a coaching practice in line with ICF standards in following areas: leadership, relationship, team and organisation.

2) “Intuitive Coach Advance” for advanced coaches, applicants for ICF Professional Certified Coach (PCC) Credential, completed with ICF PCC Performance Evaluation Exam (Level 2)

It is 68 hours of a stand-alone specific coach training programme, including 10 hours of mentor coaching. The programme is taught at an advanced coaching competency level. It is currently in a process of transition to ICF Level 1 Education.

The programme is granted with the authority to conduct the oral part of ICF PCC Credential Exam ‘Performance Evaluation’. The graduates of ‘Intuitive Coach Advance’ receive an ACTP Certificate. The ACTP Certificate entitles the graduates to apply for the ICF PCC accreditation in the “ACTP Path”.

It is intended for experienced coaches with a foundation of a prior 350 hours+ of coaching practice and 60 hours+ of coach specific training. This can include the graduates of “The Birth of a Coach” as well as graduates of a variety of coaching programmes delivered by other schools. This way we provide a wide range of practicing coaches with an accreditation eligibility directly at the ICF PCC level. The training experience is grounded in the coach’s deep personal development, eliciting their intuitive potential for co-creating with the client and expanding the awareness of their vocation.

Intuitive Coach Advance consists of: 45 hours of group face-to-face training, 7 hours of face-to-face mentor coaching sessions in a group of a maximum of 10 students, 3 one-to-one mentor coaching sessions, and 3 one-to-one observed coaching sessions with an individual oral and written feedback on 8 ICF Core Competencies at the ICF PCC level and Final ICF PCC Performance Evaluation Exam performed by Evolution Coaching Academy.

Testimonials

Tim, ACTSTH The Birth of a Coach Alumnus:

"I feel very grateful indeed to Lilith and Meredith for so expertly guiding us through the Birth of a Coach training, on my way to ICF accreditation. There were so many really profound 'ah ha' moments throughout the different modules, helping me grow from a consultant who wanted to fix and instruct people, to an intuitive coach trusting the client already knows what is best for their highest good, and trusting in my guidance to allow for those powerful questions to arrive at the right time and place to guide the journey of the client. Lilith provides a wonderful balance of calm soothing tones and authoritative guidance, which helped me so much as a trainee. Learning all the ICF competences to act as a supporting framework is complemented very much by the spontaneous coaching approach, and being encouraged to tune into the energy of the client, as an individual, couple in a relationship or a whole team. The training is all set within the context of ecological consciousness and how these beautiful skills of communication can be utilised in serving the mission to create harmony between the planet and the humans that are part of it. I would wholeheartedly recommend this coaching training for anyone who is interested in working with people, has ethical values and a desire to do some good in the world. Thank you Lilith and Meredith!"

Hilary, ACTP Intuitive Coach Alumna:

"The programme I attended with Lilith was very insightful and stretched all my boundaries, in a good way. It was a great combination of intuitive and practical, really enabled me, and my colleagues, to grow and explore areas that you can't do day to day. Lilith was a delight, she is extremely authentic and allows and respects your own presence to really explore areas useful and valuable as a coach and professional (and person). I would highly recommend this programme."

Ian, ACTP Intuitive Coach Alumnus:

"I had a fabulously engaging time as a student with Lilith. She created a powerful co-active space which allowed me to grow as a coach. I can whole heartedly recommend including Lilith in your development on your coaching journey."

Maja, ACTP Intuitive Coach Alumna:

"Course "Intuitive Coach", has allowed me to deepen my contact with my emotions and intuition. I did not think even that one can so strongly feel the connection with the client at every level ... Soaking up what he says, filling me with his emotions, reflecting it to him and leading an in-depth dialogue of souls. The course will open up people who like to experiment. It is worth to experience. "

Monika, ACTP Intuitive Coach Alumna:

"First of all I would like to thank you as the author and leading school. You connect to a gentleness, and a deep understanding, respect and steadfastness. This is an unusual combination - supporting and engaging at the same time. Didactic material, in which we have endowed, was a wise, rich and a valuable source of information and inspiration to continue to work on oneself and coaching skills. In addition to exercises and work developing intuition, understanding clients, and process on a deeper level, I have learnt to manage my session time. I can now lead a session, so that regardless of the time, I have available, I can complete and give the possibility the client's insight and reflection."

The Birth of a Coach Overview

9

The Birth of a Coach Programme is intended for people with an open heart, who wish to support others in their growth and want to learn coaching competences. The participants will develop a solid foundation to begin a coaching practice in a credible and grounded way. The programme provides all the formal elements of education required and prepares the participant for the **ICF internationally renowned coach accreditation** at the level of **Associate Certified Coach (ACC)**. It is currently in a process of transition to ICF Level 1 Education.

The curriculum includes transfer of knowledge, development of practical skills in accordance with the 8 Core Coaching Competencies defined by the ICF, as well as creating the approach, orientation and values, which are the qualities of a professional coach and are aligned with the ICF Coach Ethical Code.

The learning philosophy in the Evolution Coaching Academy is to deepen and integrate the competences developed during one module throughout the subsequent modules. The participants practice their coaching skills from the very beginning, drawing from the foundation of their already acquired knowledge and skills with the support of the instructor's observation and comprehensive feedback. We use the proportions: 20% theory, 80% practice exercises, tools, demos, observation and feedback.

During each group module we learn in parallel with four dimensions:

1. Context of coaching - transfer of knowledge, theory, introduction
2. Developing 8 ICF Core Coaching Competences
3. Understanding and deepening elements of the Coaching Process
4. Coach's Personal Development.

The 72 hours of The Birth of a Coach training consists of:

- 4 modules taking place every 4-8 weeks, in total 8 days of synchronous face-to-face group training
- 3 one-to-one 'observed coaching sessions' for each participant (via Zoom)
 - These are participant's coaching sessions with the clients that are audio recorded and evaluated by the instructor, verbally and in writing, in reference to the 8 ICF Core Coaching Competencies at ICF ACC level.

Between the modules the participants deepen their skills through practice with their clients, and with one another. Before the first Module of The Birth of a Coach each participant needs to agree with 2 persons to become their 'coach training clients' for the duration of the Programme.

The participants who choose to apply for the ICF ACC accreditation are invited to:

- Continue their learning in Mentor Coaching (10 hours as per ICF requirement for ACC accreditation)
- Complete the final ICF ACC Performance Evaluation (as per ICF requirement for ACC accreditation)

Mentor Coaching process in Evolution Coaching Academy consists of 10 hours:

- 7 hours of synchronous face-to-face Mentor Coaching sessions in a group of max. 10 participants and
- 3 one-to-one 1h 'mentor coaching sessions' for each participant

CLIENT THE LEADER

2nd Module of The Birth of a Coach

11

CLIENT THE LEADER - empowerment, the client learns to access and apply intuition, heart, wisdom and power.

Our approach assumes that everyone is a leader of their life and has access to everything they need in achieving their true intentions. It is also the foundation of coaching as defined by the ICF. What we are experiencing is the result of our creation and our choices. During the many years of coaching practice we facilitated the broadening of our client's understanding in what they really intend and desire, and the application of their true excellence in forwarding that awareness into active engagement with life. This would not be possible if we had not approached the client holistically, as a coherent whole. For us, each client is a self-differentiating being (body, mind and soul), operating in a particular environment, with a range of relationships that they create with their intentions, talents, values, habits and needs. That is why we pay attention to the client's system of beliefs and views, habits of thinking and acting, system of values, sense of identity and true intentions. Such an approach is an underlying foundation of teaching coaching competences in the 2nd Module of The Birth of a Coach.

This Module is an opening and exploration of the client's awareness. It broadens understanding of the meaning of coaching within the context of the client's empowerment: understanding of self, trusting self and taking responsibility for own actions and life. It is also a journey of discovery and development of the coach's personal potential in order to becoming an authentic partner for their clients in their outward leadership, grounded inwards.

The programme of this module:

1. Context of coaching - the transfer of knowledge, theory, introduction:

- ① The client - the expert, leader and architect of their abundant life
- ② A holistic being in an alignment
- ③ Evolution of the client as a whole in the coaching process.

2. Developing 8 ICF Core Coaching Competences:

Opening and exploration of the client's awareness; their true intentions, needs and desires, talents, uniqueness, experience, learning, perceptions, available opportunities and preferred solutions.

- ① Developing the client's access to intuition
- ② Trusting the client, openness to the client's world, their otherness, their intentions, goals and choices
- ③ Deep listening: multilevel, active and caring
- ④ Powerful questioning reaching the heart and reason, unfolding the essence and truth relevant for the client
- ⑤ Honouring and empowering the client.

3. Understanding and deepening elements of the Coaching Process:

- ① Phases of the client's development in the coaching process.

4. Coach's Personal Development:

- ① Honesty with self and self acceptance
- ② My identity as a coach.

CLIENT IN A RELATION - client develops their relationships on a foundation of partnership, trust and sustainable values

Engaging in relationships is an indispensable need for most of us, an important part of our lives, a source of joy and fulfilment.

It is also a competence, a practical skill that allows us to function in our family, work, community and society. CLIENT IN A TEAM, meaning a client's development in the system in which they operate as well as a development of a client that is a system. Intention for a sustainable, self-organising team, combining synergy of collaboration with a sense of fulfilment, empowerment and joy.

When the scope of the coaching is a client in their professional environment, family or other community, it may occur that the coaching client is the system in which our client operates. CLIENT IN A TEAM Module is an introduction to a team coaching. There - a system is the client. The participants will also be introduced to a model of a systematic and strategic support for the organisation in its evolution towards becoming an eco-business, utilising coaching tools.

The differences between life and business coaching will be explored as well as the differences in contracting coaching when the process includes a Sponsor apart from the Coachee and the Coach.

The programme of this module:

1. Context of coaching - the transfer of knowledge, theory, introduction:

- ① System coaching: the client in a system, the system as a client
- ② From a group to a team.

2. Developing 8 ICF Core Coaching Competences:

Team coaching tools

Excelling the coach's competencies:

- ① Coach shares their observation: summarises, reflects, paraphrases, shares their intuition
- ① Coach explores the client's learning style and adapts the way of conducting the session accordingly.

The participants will receive a document specifying which coach behaviours are subject to 'pass' at the ACC Credential level in relation to the ICF Code of Ethics and the ICF 8 Core Coaching Competences.
