Intuitive Coach Overview

Level 1 and 2

The **Intuitive Coach** programme is a 140 hours start-to-finish coach specific training programme. It includes comprehensive instruction around the ICF Core Competencies, Code of Ethics and the ICF Definition of Coaching. It is inclusive of 10 hours of Mentor Coaching, 3 Observed Coaching Sessions and ICF PCC Performance Evaluation.

Participants acquire practical and theoretical knowledge, awareness of the ethical conduct with multiple opportunities to develop skills under the guidance of the faculty. 140 hours consists of instruction, practice of coaching, observation with one-to-one feedback, mentor coaching and ICF evaluation:

90% of the total hours of instruction and practice are delivered synchronously with the opportunity for real time interaction between the participants and instructors.

90% of the total hours of instruction and practice are in direct alignment with the 8 ICF Core Competencies, Code of Ethics, or Definition of Coaching.

Full Intuitive Coach consists of two parts:

1) **The Birth of a Coach Level 1 for applicants for the ICF Associate Certified Coach (ACC) Credential**

72 hours of a stand alone coach specific training programme taught at the 'beginner' to 'intermediate' coaching competency level. It is indented for participants starting their journey of learning coaching competencies.

It consists of 12 days x 5 hours group training via Zoom and 3 one-to-one observed coaching sessions via Zoom. Each participant can audio-record 3 of their coaching sessions with their clients upon which the instructor provides the participant with an individual oral and written feedback on 8 ICF Core Competencies at the ICF ACC level.

The Birth of a Coach provides a foundation for the student to start a coaching practice in line with ICF standards in following areas: leadership, relationship, team and organisation.

Graduates of *The Birth of a Coach* After training can either:

1. Continue to complete full Level 1 Coaching Education and apply for ICF ACC credential. That would include 10 hours of Mentor Coaching and ACC Performance Evaluation. This way the graduate will receive the ICF Level 1 Certificate and become eligible to apply for the ACC credential via Level 1 Path or
2. Go directly to Level 2 *Intuitive Coach*. This way the graduate will become eligible to apply directly for the ICF PCC credential via Level 2 Path.

2) **Intuitive Coach Level 2 for advanced coaches, applicants for ICF Professional Certified Coach (PCC) Credential, completed with ICF PCC Performance Evaluation**

It is 68 hours of a stand-alone specific coach training, including 10 hours of mentor coaching. The programme is taught at advanced coaching competency level. The programme is granted the authority to conduct the oral part of ICF PCC Credential Exam 'ICF PCC Performance Evaluation'. The graduates of *Intuitive Coach* Level 2 receive an ICF Level 2 Certificate. After completion of the transition to Level 2, the graduate will also receive a Level 2 ICF Coaching Education certificate.

ICF Level 2 Certificate entitles the graduate to apply for the ICF PCC credential via Level1 Path.

It is intended for experienced coaches with a foundation of a prior 350 hours+ of coaching practice and 60 hours+ of coach specific training. This can include the graduates of *The Birth of a Coach* as well as graduates of a variety of coaching programs delivered by other schools. This way we provide a wide range of practicing coaches with an accreditation eligibility directly at the ICF PCC level. The training experience is grounded in the coach's deep personal development, eliciting their intuitive potential for co-creating with the client and expanding the awareness of their vocation.

Intuitive Coach Level 2 consists of: 45 hours of group face-to-face training, 7 hours of face-to-face mentor coaching sessions in a group of a maximum of 10 students, 3 one-to-one mentor coaching sessions, and 3 one-to-one observed coaching sessions with an individual oral and written feedback on 8 ICF Core Competencies at the ICF PCC level and Final ICF PCC Performance Evaluation Exam performed by Evolution Coaching Academy.

Foundation of ICF PCC Development Process in Intuitive Coach Level 2

7

The participant's journey towards the essence of the client-coach dynamic is the foundation of the development process in Intuitive Coach Level 2. We invite the coach to dive inward, into the depths of self, the client, and into the coaching relationship co-created by the client and coach.

WHAT FOR? The mission of coaching as defined by the ICF is transformation of the **WHO** of the client as a whole, resourceful and naturally creative person. Although the applicants will meet the accreditation criteria at the **ACC** (Associate Certified Coach) level focusing on supporting the client mostly in the **WHAT** i.e:

- Finding a one-off solution to the agreed goal and/or
- Using coaching tools

The assessment at the Professional Certified Coach (PCC) level expands to:

- Coach's focus on the **WHO?** of the client as a holistic human being: supporting the client in personal transformation and broadening awareness. It is about the client's sustainable evolution rather than a one-off solution
- Quality of spontaneous, intuitive coaching conversation; the quality of the coach's connection with the client; partnership and neutrality of the coach, honouring and holding the client responsible for their life and their development whilst staying engaged and active
- Coach's presence 'here and now', self-acceptance and self-awareness, the courage to take risks, stay vulnerable and 'not knowing'
- Attachment to the structure of a coaching tool instead of hearing and following the client 'here and now' may result in failing the exam.

To get there the participants will journey to the essence of self and their lives, their identity and calling, natural working style and profile of the client they naturally serve. Thriving in this programme requires a high level of openness, readiness to work at a level of depth, essence, intuition and energy field.

All group training modules consist of: 80% experience, experimentation, reflection and broadening awareness, observation and feedback, 20% of theory.

We have observed how important both the 'observed sessions'* and learning in one-to-one contact with the teacher, are helpful for the participant's development. Therefore the programme includes 3 one-to-one 'observed coaching sessions' and 3 one-to-one 'mentor coaching sessions'* for each participants.

The entire programme is completed with an oral, practical exam performed by ICF PCC assessors. Passing this exam is honoured by the ICF as PCC Performance Evaluation.

Definitions *

Observed coaching session - a '30 minutes' Zoom conversation with the teacher providing verbal and written feedback to the observed student's 30-min coaching session with the client. The student's coaching session will be provided in the form of audio recording. The teacher's feedback will refer to 8 ICF Core Competencies. At the PCC level.

Mentor coaching session - 'a 60 minutes' Zoom coaching session serving the student's development as a coach and their coaching competences towards the ICF PCC accreditation.

Testimonials

Jennifer, Intuitive Coach Alumna:

"I found the Intuitive Coach Advance course so much more than a training course. The information and experiences provided by Lilith, along with the group interaction and coaching experiences have been deeply transformative for me as an individual as well as a coach. Lilith makes experiential learning fit with the ICF markers and competencies in such a way that you fully experience their benefits but also learn how to work effectively within them as a coach. Lilith was incredibly welcoming, open and responsive to the needs of the whole group and managed the structure and timings of the day wonderfully and very naturally. The venue was calm and peaceful providing an opportunity to connect with the natural world and enhance our coaching skills and personal experiences even further. My time of the course will stay with me forever and I can't recommend it highly enough."

Hilary, Intuitive Coach Alumna:

"The programme I attended with Lilith was very insightful and stretched all my boundaries, in a good way. It was a great combination of intuitive and practical, really enabled me, and my colleagues, to grow and explore areas that you can't do day to day. Lilith was a delight, she is extremely authentic and allows and respects your own presence to really explore areas useful and valuable as a coach and professional (and person). I would highly recommend this programme."

Ian, Intuitive Coach Alumnus:

"I had a fabulously engaging time as a student with Lilith. She created a powerful co-active space which allowed me to grow as a coach. I can whole heartedly recommend including Lilith in your development on your coaching journey."

Maja, Intuitive Coach Alumna:

"Course "Intuitive Coach", has allowed me to deepen my contact with my emotions and intuition. I did not think even that one can so strongly feel the connection with the client at every level ... Soaking up what he says, filling me with his emotions, reflecting it to him and leading an in-depth dialogue of souls. The course will open up people who like to experiment. It is worth to experience. "

Sylwester, Intuitive Coach Alumnus:

"For me, the participation in the course Intuitive Coach, enabled my self discovery. First of all, as a human being. At the same time a great preparation and consolidation of forms of coaching at the level of PCC ICF. The program is tailored so that it takes into account the level of each participant. Key resource of the course is the way it is lead, the instructor shares her passions and vast experience in coaching. At the same time she creates a space for everyone to give their own contribution, and it promotes the exchange of learning and growing. I recommend it to all coaches who are thinking primarily about their development and at the same time as a path to accreditation by the ICF. "

Monika, Intuitive Coach Alumna:

"First of all I would like to thank you as the author and leading school. You connect to a gentleness, and a deep understanding, respect and steadfastness. This is an unusual combination - supporting and engaging at the same time. Didactic material, in which we have endowed, was a wise, rich and a valuable source of information and inspiration to continue to work on oneself and coaching skills. In addition to exercises and work developing intuition, understanding clients, and process on a deeper level, I have learnt to manage my session time. I can now lead a session, so that regardless of the time, I have available, I can complete and give the possibility the client's insight and reflection."

COACH IN A SUPERPOSITION

2nd Module Intuitive Coach, Level 2

10

The purpose of this module is for the coach to dive into their unique resourcefulness and its application to the coaching relationship with the client. The participants will reach the essence of their holistic self, accessing intuition, their resources and capabilities from a state known as 'superposition' in quantum mechanics.

Coaching in such a state of being is the foundation of the coach's competences at the PCC level rather than following the structure of coaching tools (being accepted at the ACC level).

Restoring the client's relationship with the natural world as part of their holistic well-being and evolution has been infused to the content to this module. It is our response to the existential challenges of our time.

In this module the participants will:

- Experience a grounding in the 'here and now', in self-generated intention; acceptance of the holistic self, the client and what is happening during the session; trusting self, the client and the coaching process. The ICF defines such competencies as 'Embodies Coaching Mindset' and 'Maintains Presence'. Students will learn and experience the difference in demonstrating this competence between the PCC and the ACC levels
- Practice a spontaneous, intuitive coaching conversation at PCC level without using coaching tools.
- Experience a grounding in the 'here and now', in self-generated intention; acceptance of the holistic self, the client and what is happening during the session; trusting self, the client and the coaching process. The ICF defines such competencies as 'Embodies Coaching Mindset' and 'Maintains Presence'. Students will learn and experience the difference in demonstrating this competence between the PCC and the ACC levels
- Experience and practise their connection with the client flowing from 'Presence' and "Mindset" becoming the quality of a competence defined by the ICF as 'Cultivates Trust and Safety' at the PCC level.
- Learn to connect self and the client with the natural world as part of a coaching conversation.
- Feel expansion of intuition, which draws from the above-described state of being and its manifestation unfolding in powerful questions 'Evoking Awareness' (ICF competence), where the client is transforming as a whole (a coaching mission, evaluated at the PCC level).
- Learn to observe and follow the energy field during the session, regardless of whether it is a face-to-face or over the phone/Zoom, instead of searching for or following a structure of a coaching tool.
- Practice how to deepen the coaching goal expressed by the client at the beginning of the session to support the client in discovering the meaning of this goal as a portal for their personal evolution as a human being. That is, contracting a coaching session (ICF competence) at the PCC level
- Practice bringing a coaching session to an end, rooting the client's new awareness and generating actions which the client truly intends to undertake, as they are deepening and grounding the process of their transformation in their daily life (ICF competence).

Logistics:

- 3 days x 5 hours of face-to-face training in a group over Zoom

After the meeting:

- Participant's coaching practise
- One-to-one mentor coaching session over Zoom with the instructor
- One-to-one observed coaching session over Zoom with the instructor
- Observed coaching session in triads with other participants

COACH IN A CREATIVE SPACE

3rd Module Intuitive Coach, Level 2

11

The purpose of this module is to connect the client with WHO they are being, WHAT they are here for and their PATH on our planet. The coaching conversation embedded in the quality of 'superposition' will be broadened by creative portals opening and expanding the client's access to their intuition:

- Environment
- Intuitive drawing
- Sound
- Body
- Movement
- Energetic geography in coaching

These kinds of portals are particularly useful in group coaching and where a system is the client, for example: a team, family or relationship. In one-to-one coaching, they offer a valuable alternative for clients who get caught in a loop in a coaching conversation. By embracing the 'body', 'senses', 'environment' and 'imagination', the client skips the analytical mind and discovers the truth about themselves, revealing often surprising answers that are coherent with them. They connect with their intuition, their subconscious and superconscious mind. By connecting the unfolding experience with their conscious mind they create new awareness (competence ICF), surpass the loop and transform as holistic human being ('WHO' coaching mission at PCC).

In this module, the participants will:

- Explore three existential questions for the client's journey through life and their role on our planet: WHO they are being, WHAT they are here for and their PATH.
- Experience how coaching integrated with art, movement, environment and imagination greatly supports the process of the client's integration at all three levels: spirit, mind and body.
- Learn the authenticity, depth and lightness of such a process, where the client's connection with their intuition is much quicker, more effective and joyful as well as compassionate.
- Deepen skills of observing, tuning into and following the energetic field during the session.
- Reflect on application of the above mentioned access channels: exploring with what type of clients and in what kind of circumstances it could serve as a valuable inclusion in a coaching conversation.
- Contemplate if any of the portals resonates with them in their natural style and intention to work with the clients. If yes, they will enrich their coaching conversation by developing it at a beginner level

Logistics:

- 3 days x 5 hours of face-to-face training in a group over Zoom

After the meeting:

- Participant's coaching practise
- One-to-one mentor coaching session over Zoom with the instructor
- One-to-one observed coaching session over Zoom with the instructor
- Observed coaching session in triads with other participants

COACH AND CLIENT IN A RELATIONSHIP

4th Module Intuitive Coach, Level 2

12

The aim of the fourth (and last) module is to integrate the discoveries from the previous modules and help the participants articulate their new awareness in:

- Understanding whom I am a coach for. Who are my natural clients?
- What are the areas of my natural coaching specialisation and with what purpose?
- What do I bring to my clients: what is my natural essence that completes my clients, which serves them in their evolution at this stage of their lives, and which serves our coaching relationship as well as my own self-realisation?

In this module, the participants will:

- Observe what relationship they currently create with a client and what is their potential when engaging with 'their natural client' and when they are authentic self, integrated with their essence:
 - What is the personality of this relationship?
 - What are the relationship's resources, possibilities, potential?
 - What is the relationship dreaming of, what does it need?
 - What is the participant's contribution to the relationship's personality, its quality and potential?
- Unfold and ground awareness of their 'natural style' of coaching that serves their 'natural clients' when they are authentic with who they are in their journey of self-realisation as a coach and as a human being.
- Develop personal plan for their coaching practice of experiencing the above in their life.

Logistics:

- 3 days x 5 hours of face-to-face training in a group over Zoom

After the meeting:

- Participant's coaching practise
- One-to-one mentor coaching session over Zoom with the instructor
- ICF PCC Performance Evaluation
